ENGINE PROTECTION
Shell Rimula diesel engine oils offer protection in the three critical areas that put the most stress on machines.

FULL PRODUCT PORTFOLIO
Shell offers a comprehensive product range that is designed to help you easily select the right lubricants for your needs, including

- heavy-duty diesel engine oils
- universal tractor transmission oils (UTTO)
- super tractor oils universal (STOU)

OUR DRIVELINE PORTFOLIO FOR ALL YOUR EQUIPMENT NEEDS

Every part of the vehicles you use has been meticulously engineered, so it's important for you to use lubricants and greases designed to protect all your equipment, helping it work efficiently and helping you keep your operating costs down.

In addition to the full range of Shell Rimula heavy-duty engine oils, Shell also offers a complete portfolio of lubricants for every part of your equipment, including Shell Spirax gear, axle and transmission oils and Shell Gadus heavy-duty greases.

The Shell Spirax range of axle, gear and transmission oils and the Shell Gadus range of greases helps you select the product that best meets your operating needs, enhanced wear protection, long oil life and high efficiency.

SHELL SPIRAX – THE BENEFITS OF USING A DEDICATED AXLE OIL

Many gearboxes and axles use different materials and operate under different conditions. A single oil used for both applications may lead to a compromise in either or both the axle and gearbox wear protection and efficiency.

Using a dedicated axle oil, such as Shell Spirax S3 AX, and a dedicated gearbox oil, such as Shell Spirax S3 G, means that the oils can be formulated to have the separate viscosity grades and different additive technologies needed to provide maximum protection, power and efficiency for each application.

SHELL GADUS – THE BENEFITS OF USING MULTI-PURPOSE GREASE

To help your equipment perform to its design standards, you need a grease that stays in place.

Shell Gadus greases contain various thickener technologies. These thickeners are designed to keep the grease in place for a wide range of components. There are Shell Gadus greases specifically designed to protect heavy-duty truck wheel bearings as well as fifth wheels from shock loading. Shell Gadus greases have passed tough industry tests and are listed and approved by many leading equipment manufacturers.
